

Clean the World®

# CLEAN THE WORLD

## Recycling Soap, Saving Lives

Clean the World is a global impact organization whose mission is to save millions of lives around the world through the recycling and distribution of soap.

Our goal is to eradicate hygiene-related deaths by providing sustainable resources, programming, and education focused on water, sanitation, and hygiene for all those affected by poverty, homelessness, and humanitarian or natural crises.

## Hotel Soap on a Mission

Used soap is collected by housekeeping and shipped to Clean the World where it is filtered, sterilized, and made into brand new bars of soap. That new soap bars are then distributed through multiple Clean the World programs to people in need around the world.

# DELIVERING IMPACT TO THOSE IN NEED

## CLEAN THE WORLD RECYCLING PROCESS - SOAP

STEP 1

Soap is collected

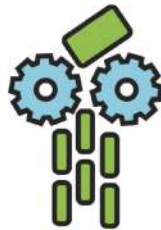

STEP 2

Soap is sanitized

STEP 3

Ground into soap "noodles"

STEP 4

3rd party lab tested

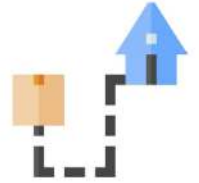

STEP 5

Cut into 50 g bars

STEP 6

Boxed and delivered

## PLASTIC RECYCLING

Clean the World has diverted over 9.9 million kg of plastic from being sent to landfills from hotels around the world. Bottled amenities are collected by hospitality partners and sent to our upcycling center. From there, the clean plastic is shredded and converted into circular building materials. The whole process is 100% circular and carbon neutral.
