

The **WASH** Foundation
An evolution of Clean the World Foundation

GLOBAL PROGRAMS

Disaster & Emergency Relief

During times of disasters, like hurricanes, wildfires, floods, earthquakes, and humanitarian crises, there is often an increase in infectious diseases due to the crowding of displaced peoples, inadequate water and sanitation, and poor access to health care.

The WASH Foundation partners with organizations and governments on the ground to help provide affected communities with hygiene supplies, access to clean water, and necessary essential supplies.

Through The WASH Foundation's Global Emergencies Program, we work with communities to prepare for and mitigate the impact of disasters whenever we can. In emergent situations and as a method of prevention and control, we must prioritize proper water, sanitation, and hygiene (WASH). At The WASH Foundation, we always aim to provide immediate assistance when an emergency hits.

Our Impact

- **Total Hygiene Kits Distributed**
 - 541,338
- **Total Soap Bars Distributed**
 - 4,124,280
