An evolution of Clean the World Foundation

FOUNDATION PROGRAMS

Fresh Start WASH & Wellness

Did you know that in America, over half a million people experience homelessness every day? Without consistent, routine living arrangements, many of those facing homelessness lack access to essential hygiene services, which can make maintaining daily hygiene practices impossible. Even most homeless shelters do not have adequate shower facilities or washing stations available for those experiencing homelessness. Access to clean water, soap, and washing facilities is not only necessary for maintaining health but also for restoring dignity and offering a pathway to a brighter future.

At The WASH Foundation, we believe everyone deserves a fresh start. Our Fresh Start WASH & Wellness mobile shower program provides shower and bathroom facilities to those experiencing homelessness. We also work to bridge the gap in supportive services by connecting individuals to mental health counseling, ID services, housing, and more. The Fresh Start WASH & Wellness mobile showers program provides more than just a warm shower- we aim to uplift those experiencing homelessness and connect them to the services that will help them rebuild and thrive.

Together, we can help serve those experiencing homelessness. By sponsoring a Fresh Start WASH & Wellness mobile shower program in your city, you're not just providing showers; you're offering hope and support to individuals rebuilding their lives.

Join us in making a difference and learn how to sponsor a program or get involved today!
